2. We are still highly interested in finding a suitable replacement for safesite [REDACTED]. It is possible that the safesite you mentioned during our discussion might be appropriate. We would first of all like to visit the place, discuss the cost, etc., before making a decision as to whether or not it fulfills our needs.

3. In as much as we are terminating site [REDACTED] which costs TSD approximately \$20,000.00 or more per year to maintain and operate we are now in a better position to pay more to get a suitable replacement for safesite [REDACTED] than what was initially planned in November 1967. In fact, we are hopeful that you will be able to acquire one safesite that can fulfill our requirements which heretofore necessitated the need of sites [REDACTED].
